

Create your own brand using a wide array
of packaging options we offer!

About us

We know that one of the keys to your success is being able to stand out in a crowded marketplace. To help you do this, and to help create a look that is unique to your brand, we offer a full range of customization options for your packaging.

MATERIALS

From thin wall to thick wall, our materials knowledge, coupled with our history and experience in the packaging industry, allows us to guide you to not only the lowest cost materials, but to also assist in finding material options for everything from decoration considerations to chemical resistance issues.

DECORATION

We offer a full range of printing options, including silk screening, offset printing, water and heat transferring, hot and foil stamping, U/V coating, and laser etching. We also offer many different finishing options for you to choose from, including in-mold color, inner and outer sprays, metallization, embossing and debossing, and spray finishes like pearl, matte, soft touch, glossy, and frosted.
